**VIRTUAL COMPUTER, AWARDED THE
PRICEWATERHOUSECOOPERS PROMISE AWARD, FOR THEIR
CLOUD COMPUTING ENTRY,
AT THE 2009 MITX TECHNOLOGY AWARDS**

*Sixth Annual Awards Celebrates New England's Most Innovative Technology
Achievements*

Cambridge, MA, June 18, 2009 — [Virtual Computer Inc.](#), the company redefining PC lifecycle management through virtualization, has been selected as a winner in the category of Promise Award winner in the Cloud Computing category for the 2009 MITX Technology Awards. The annual awards program recognizes achievements in the development and implementation of innovative technologies. Winners were announced in ten categories, as well as several “Best of” awards and the new PricewaterCoopers Promise Awards, at a sold out ceremony attended by more than 350 industry professionals held on June 16th at the Copley Westin in Boston.

“We like to describe ourselves as a ‘hot’ new startup when talking to prospective employees, partners and customers,” said Dan McCall, president and CEO of Virtual Computer, “the PricewaterhouseCoopers Promise Award Winner in the Cloud Computing category is a welcome validation of that status and we are thrilled to be recognized by them with this award.”

“This year’s award winners represent some of the most innovative thinkers in the world of technology. These companies and individuals help solve real-world challenges and help push the use and adoption of technology,” said Kiki Mills, executive director of MITX. “MITX is proud to be the foundation for New England’s vibrant digital community and to recognize and help our local talent receive the recognition they deserve, being at the forefront of innovation.”

The MITX Technology Awards program is sponsored through the generous support of: Atom Group, DLA Piper, LEWIS PR, Mad*Pow, Microsoft New England Research & Development Center, PricewaterhouseCoopers and Technology Review. Creative partners also included: Cramer, LVI Print Optimization and massAV.

For the complete list of winners and other information please visit the [MITX Awards Web site](#).

About Virtual Computer, Inc.

Virtual Computer, Inc. is redefining PC lifecycle management by making it as easy to manage a thousand PCs as it is to manage one. NxTop™, the company's flagship PC management product, combines a bare-metal client virtualization platform with a powerful central management system to dramatically reduce PC management costs, while improving reliability, security, and the end-user experience. NxTop uses advanced virtualization technology to isolate the main components of a PC: the hardware, operating system, applications, and user data, allowing each to be managed independently. Founded in 2007, Virtual Computer is privately held and headquartered in Westford, MA. For more information visit us at <http://www.virtualcomputer.com>.

About MITX

Established in 1996, The Massachusetts Innovation & Technology Exchange (MITX) is the region's premier professional organization for the Internet business & marketing industry. Reaching more than 7,000 professionals in New England, MITX is the community for thought leadership, building business relationships and professional training and development. Members of the MITX community take advantage of events, sponsorships, speaking opportunities and networking to make business connections and exchange ideas. With more than 70 events annually, MITX provides its members with the opportunity to promote their companies to targeted audiences and provides a valuable forum for networking to source potential business leads, partnerships, ideas, funding and other likeminded peers in the industry. MITX is headquartered in Cambridge, MA. For more information please go to mitx.org.
